From:

Mary Flanagan

As a member of the Center for Science in the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can leave physicians with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by CSPI.

Dear Ms. Hawley-

Also, I envy the Europeans who are blocking American meat because of the hormones in it. That's another scandal.

Please work to get rid of both.

Sincerely,

Mary Flanagan
